

## Install Version 3 - MAC

---

### **This is very important!**

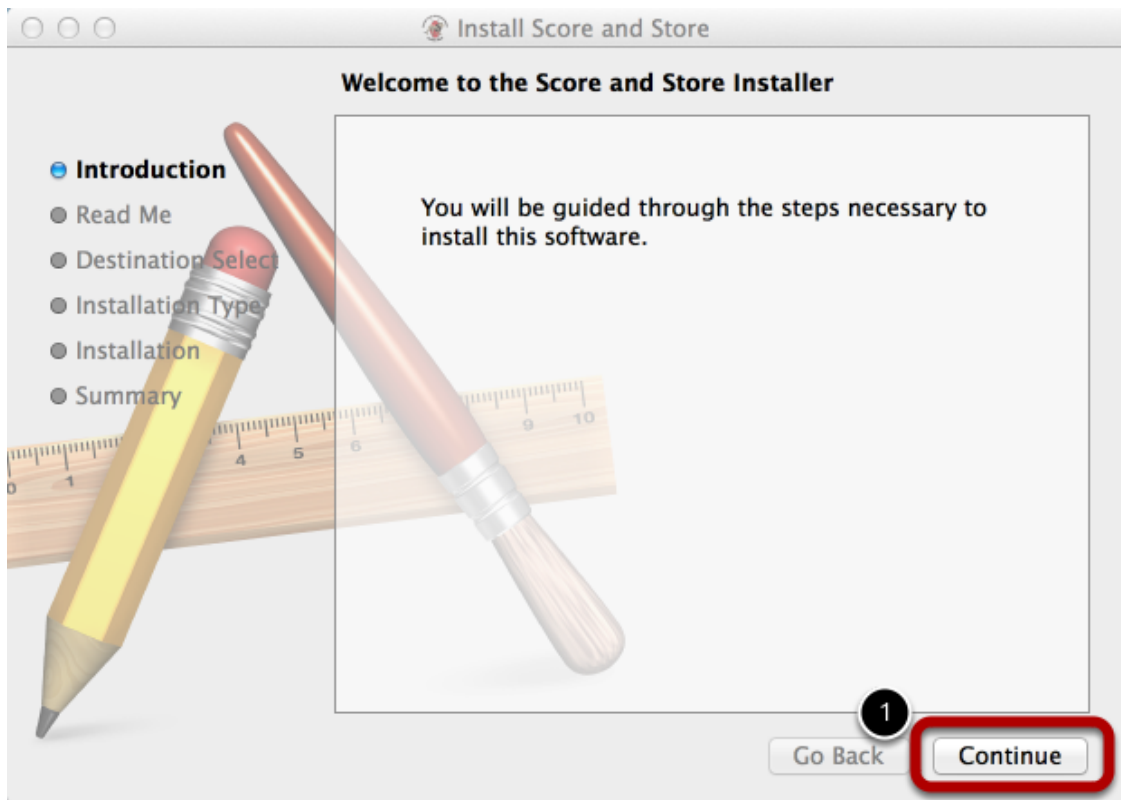

Because Apple have recently changed the structure of their application bundle, you will need to backup your hunter data **before** installing Version 3. This is required in order to prevent losing your hunter data.

### Backup Your Hunter Data from Version 2

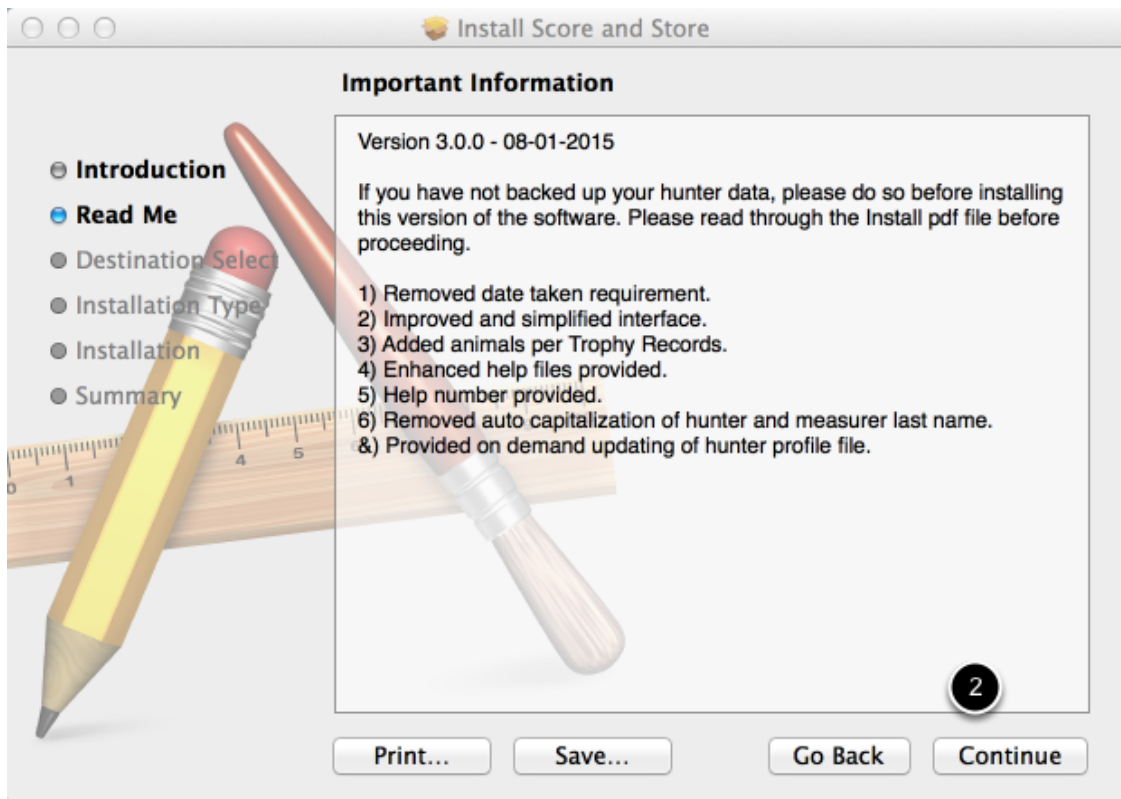

- 1) On your computer Desktop, create a folder called "Backup" or something you will remember.
- 2) Open Version 2 of the Score and Store.
- 3) Navigate to the Preferences screen.
- 4) Click the "Backup" button.
- 5) Choose the folder on your desktop as the backup location.
- 6) Quit Version 2 of the Score and Store.

## Install Version 3

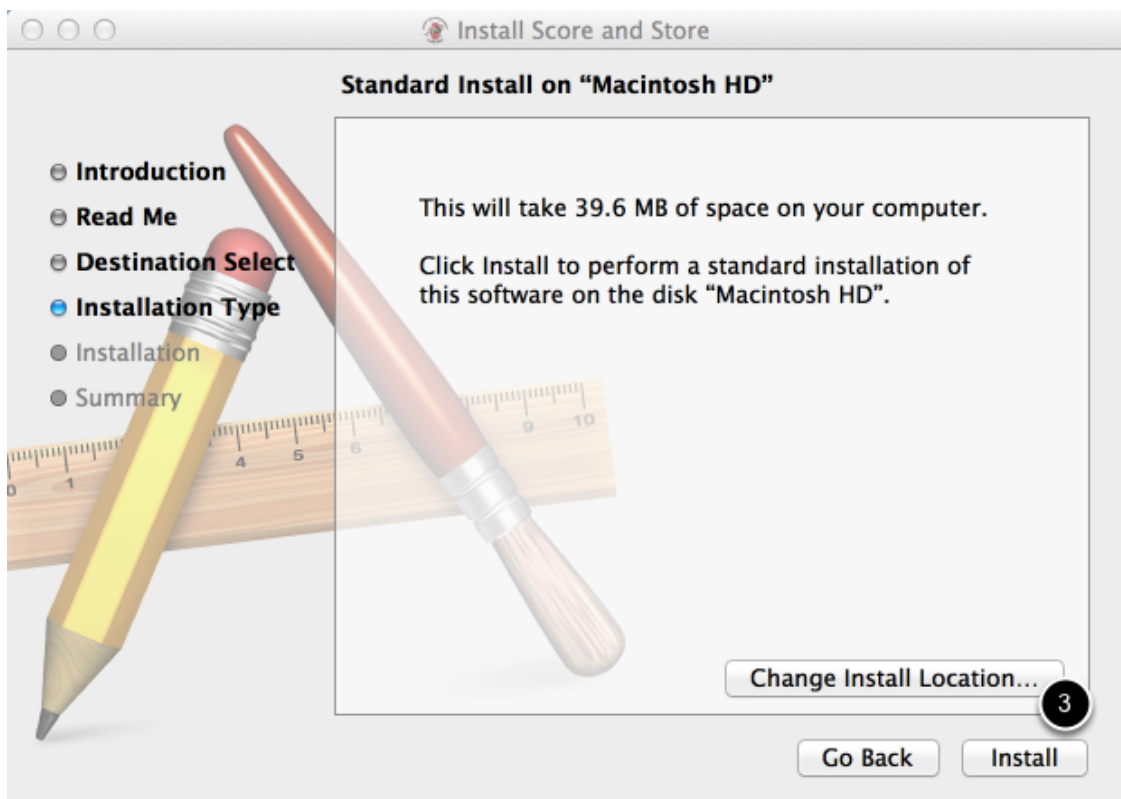

Start the Install.

1) Click "Continue".

2) Click "Continue".

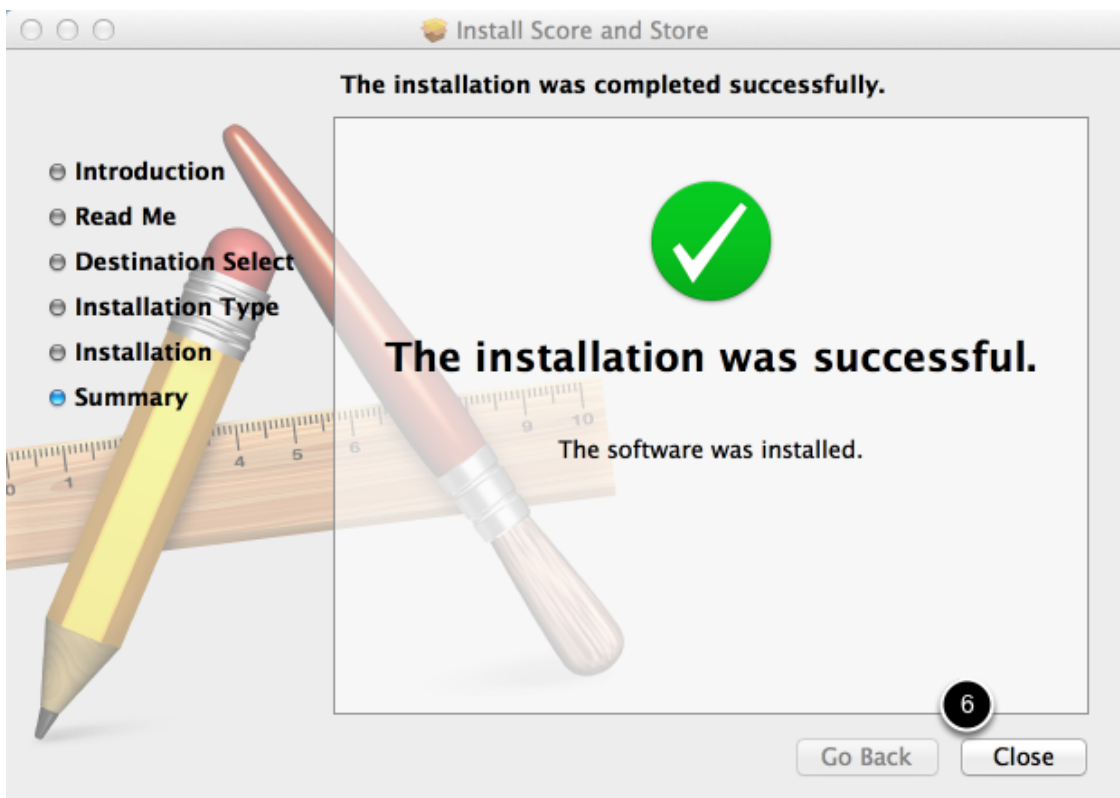

3) Click "Install".

## Password Entry Required

- 4) Enter your password
- 5) Click Install Software.

## Your Software has been Installed

- 6) The Score and Store software was installed at the root of the "Users" directory.
